# Advertisements on This Page Must Be Paid in Advance. No Exception to This Rule [ INSURANCE MEN DECRY NEW PLAN

Co-operative System Is Called Heresy-Aghast at Exposure of Profits on Policies.

Chicago, Dec. 12 .- An experiment tried here in co-operative insurance, the antithesis of the close control unearthed by the New York investigations, which enables a Ryan or a Morgan to completely dominate a half billion dollars contributed by policy holders, is said to be giving insurance men no end of trouble. The Chicago heresy of offering everybody the way to exloit their own chances of getting burt instead of dedicating that privilege to a few astute men, as was com-monly done prior to the Hughes inves tigation, has developed on trial pain fully strong symptoms, it is said, of public endorsement of the heresy. While "mutual" life insurance of

the liyde variety has been remodeled and renovated to a truly mutual basis. the co-operative invasion into the field of accident underwriting by a corporation has been an innovation, for the anblic as stockholder has been shown that there are profits, big profits, in the rates regularly charged for casual-tyty insurance, and has been taken in "Realy, it never should be per mitted." the deacons of the orthodox underwriters' creed are sputtering ve hemently. For the heresy of exposing to everybody these sacred corporate jucts has brought into the limelight some figures which most people never see, figures which appear in annual reports to stockholders of accident in-surance companies of actual profits which make the dividend hopes of a wildcat mine promoter look tame and commonplace. That everybody hasn't steam yachts and automobiles seems to be due to failure of an ancestor to get stock of an orthodox insurance

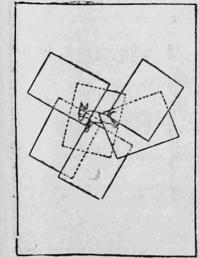

The total assets of the Prudential Insurance company during its first year, were \$11,836; today the assets f this company amount to \$145,224,-677. The amount of money each stockholder invested in this company twenty-five years ago has been paid back te, him fifty three times, and he has received a yearly dividend of 215 per cent on his original capital. For every \$10 invested it has paid every year \$220,00. Since its organization it has paid its stockholders the original capital fifty-three times. The 48th annual report of the Insurance Commissioner of the Commonwealth of Massachu selis, dated Janualy 1st, 1903, said: "The amount paid into the Prudential company in cash for stock was \$91. All the rest of its \$2,000,000 of capital stock has come from stock dividends annually since 1893. In other for every \$1,000 paid in these stockholders hold \$22,000 of stock upon which they received \$2,200 annually; that is, each year for ten years they have received in cash dividends more than twice the original invest-

To follow the money paid to insurrice companies of the orthodox, closeheld, profit reeking variety, actuaries confessed that the insurance for which you pay one dollar really represents in actual service to you about boliev holders for losses. Of this dolar the insurance agent gets 15 cents his cor mission. Eight cents on he average goes to run the general expenses and pay the officers their Forty-seven cents goes to pockets of the stockholders themselves, actualy given away by you. In other words, you make the insurance companies a present of about 47 cents en every dollar.

# NEW GAME WITH CARDS

Part of Animal on Each Card and Object is to Assemble Them.

A variation on the figsaw or ordinary cut up puzzle has been designed by a New York man. In this new game the object is the same as in the old typethat of assembling the various parts to make a whole animal or birds, as the case may be—but it is in some respects more difficult. The cards can be printed either with a part of only one object on one corner or with parts of various ob-jects on all the corners or along the In playing the game the idea is see who can make up the greatest

VARIATION OF JIGSAW PUZZLE.

aber of these objects, either in a given lime or in an unlimited time. Though t may not appear so, this type of puzzle s unusually difficult, as there are no curiously cut edges by which the various pieces may be identified by neighbors. The animals, or whatever the objects may be, are formed by the matching of lines entirely and a knowledge of the appearance of the objects in question aids greatly in forming them.

MONITOR MINING CO. HAS PROMISING OUTLOOK

Mining company, of which Otis Hill is president, reports that its property near Mullan, Idaho, is in better shape than ever before. The shaft has been sunk fro mthe 400-foot to the 700 foot level and exposed an excellent show ing of high grade ore, running about per cent copper, with silver and ld values. H. F. Samuels of the Success Mining company, who has taken over the management, contracted to sink 300 feet and drift 1,500 feet before July 1, 1910. For this work he is to receive \$60,000, to be paid

AGE

rom the receipts from ore sold before

At the end of that time he is to be privileged to take over more than half of the 1,000,000 shares at 15 cents each. He has already completed the vance. haft according to contract, and part of the drifting has been done, but no ore has been sold. In case none is old he still has the right to take over the stock. Mr. Hill gave out this statement:

"Since the Chicago, Milwaukee & Puget Sound railroad, within a mile of our property, has been completed it has also been thought possible to tunnel in on the level of the road to the shaft of the Monitor. Such a tunnel would strike us at the 2,000-foot level, and, once completed, the Monitor could be mined more economically than any other in the Coeur d'Alenes. It is also believed that the Richmond and St. Lawrence and several other claims which have made good showings could be mined from this same main tunnel. It is possible Mr. Samuels is contemplating finishing this tunnel before shipping much ore."

## FORESTS BEGIN TO FEEL

Boston, Dec. 12.-The Yuletide call to the forests and its exactions of 203 First Nat'l. Bank Bldg. four million young spruce, firs and balsams has been felt for the last three weeks in Maine, Michigan and Oregon, the great centers of Christmas tree cutting industry. Ship-pers are now busy rushing the product to the market

The total cut of trees yields the owners of lands about \$160,000 while "consumers" pay about \$2,000,000, shippers and dealer reaping a great

Chicago, which uses about 300,000 trees annually, takes the bulk of Michigan's yield.

Oregon's trees are cut more than those of any other Pacific state, but the total cut of that state does not equal that of either Maine or Michigan .

#### BINGHAM MINE ACCIDENT.

Bingham, Dec. 12.-Dalla Cortez, a nucker in the sulphide tunnel of the Boston Consolidated Mining company, morning. While working in one of the stopes a block of timbers gave way, striking him across his legs, fracturing one below and the other above the knee, besides inflicting painful besides. He was at once taken to the net with a serious accident Saturday oruises. He was at once taken to the company hospital, where his limbs vere set, and then taken to St. Mark's hospital in Salt Lake.

#### THAWING FROZEN PIPES.

Frozen water pipes have been thawed out when not too badly frozen by placing hot towels over them. This is not a speedy way, but it can be done, and has been the means of saving plumbers' bills. A lighted candle will often prove helpful. It is said the best procedure is to always apply the heat at the lowest end, gradually working upward on the pipe, so that the water can flow from beneath as the ice thaws.

## MARINES TO GUARD PRAIRIE.

parines to proceed with the cruiser Prairie on her interrupted trip from Philadelphia to Colon was made up on the three New England navy yards today. It yielded only 96 men.
